OÉ Gaillimh
NUI Galway

Business Innovation Centre

Today's Entrepreneur is tomorrow's Enterprise

Support Structures in place - The Enterprise & Innovation Centre is managed through the offices of the Technology Transfer (TTO) in NUI Galway who are responsible for;

- Intellectual Property Management, growing portfolio of technologies
- Technology Licensing & Spin-out Campus Company formation
- Entrepreneurial Training programmes
- An Industrial Outreach office linking Industry and academia
- Business Mentoring and Sectoral Expertise

Expertise available - NUI Galway has established an international reputation for excellence in research and teaching, and as a result is home to many centres of excellence such as:

- National Centre for Biomedical Science and Engineering (NCBES)
- Regenerative Medicine Institute (REMEDI)
- Digital Enterprise Research Institute (DERI)
- Martin Ryan Marine Science Institute (MRI)
- Environmental Change Institute (ECI) - And many more....

Access - For a Client Company to have ***access*** to such World-leading Research Centers, with ground breaking technologies is a major advantage.
