

Technology Transfer Office (Tel: 091-49-2147)
Science & Engineering Technology Building, NUI, Galway
Directions

- ❖ On your approach to Galway from Dublin you will have a number of roundabouts to pass through. It is best to follow the signposts for Galway West / Clifden (i.e., N59).
- ❖ You will find yourself driving over a four lane bridge called the Quincentennial Bridge.
- ❖ At the end of the bridge you will approach a set of traffic lights (you will notice a petrol station on your left-hand side at the lights)
- ❖ Turn left at these traffic lights.
- ❖ At the next set of traffic lights turn left also – these lights are located outside the AIB Bank. You are now in NUI Galway grounds (Distillery Road Entrance).
- ❖ Take the first left on Distillery Road and continue until you pass under the Quincentennial Bridge.
- ❖ The road will veer left immediately after passing under the bridge. The New Science and Engineering Technology building is the building facing you (see below).
- ❖ There are Pay & Display Parking areas in front of the building (blue-lined area)
- ❖ When you enter the building, take the stairs on your right hand side to the first floor where you will locate our offices.
